1. What Jackhigh is

Jackhigh is a website for lawn bowls: leagues, cups, club competitions and open tournaments, with their fixtures, results and tables. Anyone can look at the results. Players, captains and the people who run clubs and leagues sign in to do more.

2. Finding results

Use the links at the top of every page:

- **Organisations**: the leagues and associations on Jackhigh. Each has its leagues, cups and tournaments, with their tables, fixtures and results.
- **Clubs**: every club, with its teams, players, fixtures and results.
- **Players**: each player's own record, with their results and averages.
- **Tournaments**: open tournaments you can enter or follow.

> **Tip:** Many leagues and tournaments have a short link, such as jackhigh.co.uk/midshire, and a QR code on their posters. Open it on your phone to go straight there.

3. Getting your own login

With a login you can see your upcoming matches, say whether you can play, and keep your own record.

1. If your club has added you as a player, ask your club secretary for your **join link**. It creates your login and links it to your player record, so your results are already there.
2. If you're new to a club, open the club's page and press **Join our club**. The club is told, and adds you once they've checked.
3. Otherwise, press **Register** at the top of the page to create a login.

Once you're signed in, **My matches** shows your matches and lets you say whether you can play.

4. Entering a tournament

Open the tournament from **Tournaments** and press **Enter a team**. You don't need a login. The organisers approve entries into the draw, and you're emailed when your team is in.

5. Bringing your club or league

- **Add your club**: tell us about your club and we'll add it.
- **Run your league here**: tell us about your league or association and we'll be in touch about setting it up.
- **Request to manage this club**: on a club's page, if you're one of its officials.

The first two are on the home page, and the third is on the club's page. None of them needs a login.

6. Getting help

If anything isn't clear, email admin@jackhigh.co.uk.
